 \LaTeX

research methods

Case studies
Ethnography
Netnography
Grounded theory
Action design
Social net. analysis
Statistical analysis

interests

Technology, Research, Education, Business, Networks, Information Systems, Information Science, Software Engineering, Software Ecosystems, Open-Source, and Open-Coopetition.

degrees

2011–2018	Ph.D. Economics and Business Administration Dissertation: "Coopetition in an open-source way"	Univ. Turku
2007–2009	M.Sc. Management of Information Technology <i>Erasmus Mundus joint degree</i>	Univ. Turku, Tilburg, Aix-Marseille
2000–2005	Lic. Computer Networks and Distributed Systems Engineering	Univ. Porto

current employment

2022-2024	Åbo Akademi University, Turku <i>University Lecturer (contract)</i>	Lecturer
-----------	---	----------

previous work experience

2019-2022	Åbo Akademi University, Turku <i>Post doctoral researcher (multiple projects) and Lecturer</i>	Researcher
2018 (9m.)	Aalto University, Helsinki <i>EIT study on venture capital investments in open-source startups</i>	Researcher
2017-2022	Åbo Akademi University, Turku <i>Academy of Finland study on digital literacy at the workplace</i>	Researcher
2015 (6m.)	University of Turku, Turku <i>Graduate School (UTUGS) funded doctoral training position.</i>	Researcher
2015 (6m.)	LUT, Lappeenranta <i>Academy of Finland study on systemic competitive advantage.</i>	Researcher
2014 (3m.)	University of Turku, Turku <i>EU H2020 EIT ICT Labs study on open-source software.</i>	Researcher
2014 (9m.)	LUT, Lappeenranta <i>Tekes industrial study on systemic competitive advantage.</i>	Researcher
2012-2015	BoostTurku, Turku <i>Fund raising and other entrepreneurship society activities.</i>	Board Member
2008-2010	Nokia, Helsinki <i>Development of the Maemo and MeeGo mobile platforms.</i>	Project Manager
2006-2007	Wipro, Many locations <i>Onsite consultant within Tesco and DHL ERP implementation programs.</i>	IT Business Analyst

2004-2006	Enabler (Sonae group), Porto <i>Systems Analyst participating in the EU FP6 project Modelware.</i>	Software Developer
2004 (6m.)	Universidade do Porto, Porto <i>External auditor and teacher</i>	Research Assistant

research funding and grants

- ★ Åbo Akademi open-science project (ScrapLogGit2Net scientific software tool)
- ★ Kulturfonden (understanding opportunity-based entrepreneurship among refugees)
- ★ Åbo Akademi open-science project (Namelt scientific software tool)
- ★ Liikesivistysrahasto (grant 190390)
- ★ Liikesivistysrahasto (grant 190391)
- ★ Åbo Akademi post-doc (prediction of venture capital investments in open-source startups)
- ★ EIT Digital (prediction of venture capital investments in open-source startups)
- ★ Liikesivistysrahasto (grant 170388)
- ★ Liikesivistysrahasto (grant 170387)
- ★ ISPMA fellowship (the co-evolution of software ecosystems)
- ★ Liikesivistysrahasto (grant 8-4499)
- ★ EIT Digital (exploring the social structure behind open-innovations)
- ★ KAUTE Foundation (tutkijat maailmalle visiting scholar grant)
- ★ Rauno Virtanen fund (cooperation among competitors in an open-source way)
- ★ Liikesivistysrahasto (grant 5-3076)
- ★ Marcus Wallenberg Säätiö (open-coopetition R&D management strategy)
- ★ Liikesivistysrahasto (grant 42467)
- ★ Liikesivistysrahasto (grant 32061)
- ★ Liikesivistysrahasto (open-source platform-based strategies)
- ★ Liikesivistysrahasto (grant 31815)
- ★ Fundação para a Ciência e a Tecnologia (grant SFRHBD615612009)

research output

Output	Source	Total
Number of publications	Own records	60
JUFO points	Federation of Finnish Learned Societies	27
Number of citations	Google Scholar ^a	520
H-Index	Google Scholar ^a	12
Scientific software projects	Personal website + GitHub	11

^a The Google Scholar profile for José Apolinário Teixeira was last manually curated on 1 September 2024. Note that José Teixeira is a very common name causing some authorship issues.

10 most important publications

Books

Information Literacy and the Digitalisation of the Workplace

Widen, Gunilla and Jose A. Teixeira

ISBN: 9781783305827. Facet Publishing, 2023

Journals

Managing to release early, often and on time in the OpenStack software ecosystem

Teixeira, José Apolinário and Helena Karsten

Journal of Internet Services and Applications 10.1 (Apr. 2019). Springer, 2019

Lessons learned from applying social network analysis on an industrial Free/Libre/Open Source Software ecosystem

Teixeira, Jose, Gregorio Robles, and Jesús M. González-Barahona

Journal of Internet Services and Applications 6.1 (July 2015). Springer, 2015

Conference publications

Towards understanding open-coopetition – Lessons from the automotive industry

Teixeira, José A.

Proceedings of the 44th International Conference on Information Systems (ICIS 2023). AIS. 2023

Network Science, Homophily and Who Reviews Who in the Linux Kernel?

Teixeira, Jose, Sami Hyrynsalmi, and Ville Leppänen

Proceedings of the 28th European Conference on Information Systems (ECIS 2020), Marrakesh, Morocco. AIS. 2020

Opensourcing vs. crowdsourcing — Juxtaposition and the future of software sourcing

Fitzgerald, Brian, Pär Ågerfalk, Jose Teixeira, Matti Rossi, and Lorraine Morgan

Proceedings of the 25th European Conference on Information Systems (ECIS), Portsmouth, UK. AIS. 2018. (Panel)

How do Software Ecosystems Co-Evolve? A view from OpenStack and beyond

Teixeira, Jose and Sami Hyrynsalmi

Proceedings of the 8th International Conference on Software Business (ICSOB), Essen, Germany. Springer. 2017. (Best paper award)

Cooperation among competitors in the opensource arena: The case of OpenStack

Teixeira, Jose, Salman Qayyum Mian, and Ulla Hytti

Proceedings of the 37th International Conference on Information Systems (ICIS), Dublin, Ireland. AIS. 2016

Developing a cloud computing platform for Big Data: The OpenStack Nova case

Teixeira, Jose

Proceedings of the 2nd International Conference on Big Data (IEEE BigData), Washington DC, USA. IEEE. 2014

Collaboration in the open-source arena: The WebKit case

Teixeira, Jose and Tingting Lin

Proceedings of the 52nd ACM SIGMIS Computers and People Research (CPR), Singapore. ACM. 2014. (Runner up for the best paper award)

Pipeline - 25 most promising working papers as 1st or 2nd author

N	Title	Co-authors	Previous	Target	Last submission
1	Towards understanding open and coopetitive platform ecosystems: The Case of TensorFlow	Annika Laine-Kronberg ^{ÅAU} Syed Ahmed ^{ÅAU} Jozsef Mezei ^{ÅAU} Edin Smailhodzic ^{UG}	ICIS 2024 ^{r+}	ECIS 2025 ^s	Nov 2024
2	Exploring the roles of non-commercial entities in open and coopetitive ecosystems	Syed Ahmed ^{ÅAU}	JPIM ^{r+}	SMJ ^c	Aug 2023
3	Openness in the context of digital ecosystems	Abayomi Baiyere ^{CBS,Queen's}	JIT ^{r+} , ISR ^{r+}	Research Policy ^s	Feb 2020
4	Understanding entrepreneurs' use of digital information sources: The case of Vietnamese and Finnish entrepreneurs in Finland	Thao Laavunen ^{ÅAU} Gunilla Widen ^{ÅAU}	-	JIS ^s	Jan 2025
5	How do young people evaluate information pertaining sports and fitness	Muhaimin Karim ^{ÅAU} Gunilla Widen ^{ÅAU}	ECIL ^P	JIS ^s	Jan 2025
6	Towards understanding coopetition in the open-source arena - A critical review and agenda for future exploration	Edin Smailhodzic ^{UG} Gunilla Widen ^{ÅAU}	ECIS ^{r+,ICIS^{r+}}	JIT ^c	May 2024
7	Towards understanding open-coopetition - The case of Automotive Grade Linux	Single authored	ICIS ^P	JAIS ^c	Deb 2024
8	Coopetition in Open-Source Software: The WebKit Case	Lin Tingting ^{PON} Joni Salminen ^{UoV}	CPR ^{P,RBP}	IMM ^{r+}	May 2018

8 most important scientific software projects

Namelt

- **Description:** A tool and a standard to rename research articles in the pdf format. Based on the pdf metadata, the Crossref API, and the content of the document first page, it renames the file with information about author, year, title, publication, and publisher.
- **License:** GPL3 **Link:** <https://github.com/jaateixeira/nameit>

ScrapLogGit2Net

- **Description:** A toolset for mining and visualizing Git repositories with Social Network Analysis. It allows users to scrap, model and visualize social networks based on common source-code file edits for any given Git repository.
- **License:** GPL3 **Link:** <https://github.com/jaateixeira/ScrapLogGit2Net>

vc2sng - visually compare 2 social network graphs

- **Description:** Visually and quantitatively compares two given social network graphs. Handy for comparing the social structure of (1) two distinct cohesive groups, or (2) comparing the same cohesive group at two points in time.
- **License:** GPL3 **Link:** <https://github.com/jaateixeira/vc2sng>

org-color-dict

- **Description:** Provides a dictionary (aka map) of colours associated with business firms. It is handy for the ones analysing business firms as colours are often a key element of firms' branding. Used by ScrapLogGit2Net, vc2sng and other open-source projects.
- **License:** GPL3 **Link:** <https://github.com/jaateixeira/org-color-dict>

bib2ge0net

- **Description:** From a given list of references (.bib format), it extracts a geographical collaboration map. Uses Crossref DOI REST API to identify authors' affiliations and GeoPy to put them on the world map. Handy to analyse international co-authorship networks.
- **License:** GPL3 **Link:** <https://github.com/jaateixeira/bib2ge0net>

Impress-academic.js

- **Description:** Collection of styles (css) and scripts (js) that leverage the power of impress.js for more academic presentations. Handy to share presentations as single URL link with control.
- **License:** GPL3 **Link:** <https://github.com/jaateixeira/impress-academic.js>

OSBBS - One Steep Back Before Submitting ... your paper to a publisher

- **Description:** Automates some of the common old-school requests commonly asked by editorial offices that do not make much sense for \LaTeX submissions but can be easily automated and done in seconds (e.g., put footnotes at the end, all figures in separate files or sections, format everything in with double space, and convert to MS Word).
- **License:** GPL3 **Link:** <https://github.com/jaateixeira/osbbs>

biblatex2bibtex-by-publisher-template

- **Description:** From a collection of .bib files (compatible with BibLaTeX/Biber), create a single .bib file (compatible with BibTeX) for a given Latex template provided by a publisher. Needed because, even if BibLaTeX/Biber is superior in many ways to BibTeX, many well-known publishers do not support it yet. Supports \LaTeX templates from many publishers.
- **License:** GPL3 **Link:** <https://github.com/jaateixeira/biblatex2bibtex-by-publisher-template>

Other activities related to supervision

Year	Activity	University	Participants
2021-2024	Information Studies research seminar	Åbo Akademi	Doctoral students & Faculty
2021-2024	Shut up & Write	Åbo Akademi	Doctoral students & Faculty
2023	Funding session for doctoral candidates	Åbo Akademi	Doctoral students
2021	Discussing theoretical contributions	University of Minho	Doctoral students
2021	Social Network Analysis. Tools & applications	University of Minho	Doctoral students
2016	Writing collaboratively with Latex and Git	University of Turku	Doctoral students
2015	Academic publishing in Open Access	University of Turku	Doctoral students
2014	Organizing literature, references, and citations	University of Turku	Doctoral students and library staff

Other internal activities related to administrative and leadership duties

Year	Activity	University	Participants
2025	Volunteering on the Information Studies conference	Åbo Akademi	
2024	Ranking and interview of applicants to the GoD MSc program	Åbo Akademi	Faculty members
2023	Co-organizing event for GoD MSc program alumni	Åbo Akademi	
2018	Volunteering on the Information Studies conference	Åbo Akademi	
2016-2017	Ranking of applicants to the GIT MSc program	University of Turku	Faculty members
2013-2015	Selection of applicants to the accelerator program	BoostTurku	Board members
2012-2015	Organizing the TechTuesdays evening events	BoostTurku	
2011	Volunteering on the IRIS34/SCIS2 conference	University of Turku	

Chairing, panels and keynotes at international events

Year	Role	Event	Topic
2024	Keynote	#frAlday @ Umeå University	Use of AI in teaching
2023	Session chair	ICIS 2023 conference	IS Design, Development, and Project Management
2018	Keynote	Information Days 2018 conference	Digital literacy and the workplace
2010	Track chair	MCIS 2018 conference	Systems Integration
2019	Session chair	ICIS 2019 conference	IS Development and Project Management
2018	Panellist	ECIS 2018 conference	Juxtaposing crowdsourcing vs. open-sourcing
2012	Session chair	IADIS ICT 2012 conference	Healthcare systems

awards, honors and nominations

- ★ Nomination to the CHARM-EU Open Science Recognition Award 2023
- ★ Best paper award at ICSOB 2017
- ★ Runner-up for the best paper award at IFIP WG 2.13 OSS 2017
- ★ JTAER (best reviewer of the year 2015)
- ★ Nordic Startup awards (**BoostTurku** - best business accelerator 2015)
- ★ Runner-up for the best paper award at ACM SIGMIS CPR 2014
